

I just wanted to let you know how important Air1 Radio is to me & my family. I receive Air1 Radio via 90.1 FM. This is the only station I listen to because I can count on it being family friendly and positive. If Air1 were displaced by an LPFM broadcaster providing other programming I would no longer listen to the radio. The music put out by Air1 is positive for our entire community and I ask you to continue to allow this station to be on the air. Thank you for your time.
